KEEP STORM DRAINS CLEAR

Help Prevent Local Flooding

Storm drains help move rainwater away from streets and neighborhoods. When leaves, grass clippings, litter, and other debris cover drain openings, runoff may not be able to flow where it needs to go. This can lead to street flooding, property damage, and unhealthy conditions in our communities.

Leaves + Litter + Grass Clippings + Debris

BLOCKED DRAINAGE

YOU CAN HELP!

Keep leaves out of streets.

Keep grass clippings out of gutters.

Pick up litter.

Report clogged or damaged drains.

STAY SAFE: **Never remove a storm drain grate or enter moving or deep water.**
Contact your local public works or stormwater department when conditions are unsafe.

CLEAR DRAINS. CLEANER WATER.
BETTER-PREPARED COMMUNITIES.
